

## **ATC HEALTHCARE WORK RELATED INJURY PROCEDURE**

In the event of accident, injury or an adverse event, please notify your facility's department manager or supervisor immediately. Unless it is a life threatening emergency, please notify your ATC office manager or staffing coordinator no later than 24 hours after the event. ATC uses a nurse triage service called MEDCOR, available 24/7. Anytime you sustain an injury at work, please call 1-800-775-5866. This is not a substitute for calling your Recruiter, so please call both MEDCOR and your ATC Representative. ATC with the guidance of a MEDCOR Case Manager will direct you to an approved Workers Compensation site to receive treatment.
